

## Web Development fulltime/part-time

**We are looking for Web Developers (Frontend and/or Backend) to support our product development. Your opportunities reach from a challenging internship to becoming a core part of the funding team.**

### Who we are?

Blitzminds is a Munich based B2B Software Start-Up. Our team consists of two software developers and one business developer. We already have major german corporate customers and are part of the TU and LMU accelerators.

### What we do?

For years, companies search for satisfactory digital knowledge management tools but fail to get their employees sharing data. BlitzMinds designs the knowledge management tool that achieves the highest user rates. We support companies with our innovation database in developing better innovations for their customers.

### What we offer?

- Work with and extend or current stack: HTTP, JSON, REST, Git, Java EE, Maven, Spring, Docker & neo4j, TypeScript, Angular 2/4, SCSS
- Stay close to the users needs and develop first class user-centric features
- At BlitzMinds everybody`s voice counts the same
- Be part of the startup ecosystem in the heart of Munich

### What we expect?

- Results-driven, responsible way of working
- Be a good team member, be honest & create clean software with your teammates
- Be open-minded for technical innovations and their application for BlitzMinds
- At least 4th semester Bachelor, basic expertise in web-development
- You love what you do and strive for new experiences
